

The East Windsor American Heritage River Commission is opposed to shutting down the Council of Environmental Quality. We have been testing the waters of the Scantic River for the several years and the last two years we have included E. coli testing. The extremely high rates of this bacteria have given us cause for alarm. We need watchdogs for our environment. This is where we live !!! The small amount allocated to this CEQ budget can surely be found in some other department's excess. Please reconsider your decision. Barbara Sherman, Secretary for the AHRC of East Windsor CT
